

## Environmental Policy Statement

Ion is committed to best practicable environmental practice in all aspects of its activities, and specifically to the prevention of pollution.

Continual improvement is central to the environmental philosophy of the Company as is compliance with legislative/regulatory requirements at both national and local levels.

A series of objectives and targets to reduce the environmental impact of those impacts evaluated as being significant have been documented. An appropriate management programme ensures that all practicable steps are taken to realise these objectives and targets.

The communication of information and education of suppliers and customers, where Company knowledge and experience permits, forms a highly important element of the Company's commitment to this environmental policy.

Communication activities extend to making this policy statement and performance details with reference to objectives and targets, publicly available on request.
